- 4. State of dryness:** 5 1-10 wet-dry where 5 is ideal.
- 5. Smoke ability:** 8 smoke ability of the sample from 1-10 harsh-smooth.
- 6. Smoke expansion:** 10 smoke expansion in the lungs from 1-10 stable-explodes.

Smoke Test Comments: - When bubble hash is in the skunk-mad house all the family get `s together to test my hash making skills and we all came to the conclusion that this is the best hash I have ever made. The smoke was ultra thick giving a very heavy but stable hit from the TY RoOR bong with a very fast all most immediate high. The amazing taste of cheesy hash came through on the inhale with a lovely musky fruity taste on the exhale. We had 4 grade `s of bubble hash to test 150u,120u,75u, & 25u, usually the full melt bubble hash comes from the 75u bag but all 4 grades were full melt bubble hash leaving nothing behind when burned except from happy giggly faces. This was a great family get together with some of the finest bubble hash on the planet, everyone chatted late into the night and left with a lovely warm feeling like you were wrapped up in a blanket.

FOLLOW UP QUESTIONS

- 1. Dosage:** - 2 bowls to reach desired effects.
- 2. Effect onset:** 1 Rate of how quickly the effect hit from 1-10 immediate-major creeper.
- 3. Sativa influence:** 5.5 Sativa influence (best described as a clear and energetic mental effect) detected from 0-10 none-extreme.
- 4. Indica influence:** 4.5 indica influence (best described as a sedative, lethargic or numbing effect) detected from 0-10 none-extreme.

FINAL COMMENTS: - This amazing bubble hash was made from the left over sugar trim from a previous harvest. It was made with 85% cheese trim & 15% cannatonic trim in total 90g of sugar trim produced 126 gram of excellent medicinal quality bubble hash in 4 grades from 150u-35u. Hash specifically bubble hash is one of my favorite concentrates mainly for the use in insomnia treatment and bi-polar disorder but it also work `s very well for multiple ailments. We were amazed at how fast this bubble hash worked for pain relief giving a very fast almost immediate relief from medium/severe pain issues along with moderate anxiety relief. As the hash trade has almost seized here in the UK im so glad that I invested in a set of bubble bags 3-4 years ago with these results I will never throw away any trim again. This was a very productive bubble hash run which produced my best bubble hash to date in my opinion the cheese strain is the best strain yeild wise to create some of the best bubble hash in the world hey if I can do it anyone can.
