 - 4. State of dryness:** 5 1-10 wet-dry where 5 is ideal.
 - 5. Smoke ability:** 10 smoke ability of the sample from 1-10 harsh-smooth.
 - 6. Smoke expansion:** 3 smoke expansion in the lungs from 1-10 stable-explodes.
- Smoke Test Comments:** - This polm is very kind on the lungs but hit,s very hard with very thick clouds of super fruity hash infused smoke, this is by far the tastiest smoke we have had in a while, actually as mouth watering smoke, very Moorish. We used mainly the TY Roor to test this hash out and every hit was outstanding with immediate pain relief which is sometimes required. If you need to get pain under management fast then hash is the was to go very fast onset of effects, a very cerebral high but a high you could easily work on whilst keeping pain at bay. A very good all-round hash that hit,s the spot every time.

FOLLOW UP QUESTIONS

- 1. Dosage:** - 2 bowls to reach desired effects.
- 2. Effect onset:** 1 Rate of how quickly the effect hit from 1-10 immediate-major creeper.

FINAL COMMENTS: - This hash was made from the sugar trim from subcool,s jack the ripper and cheese quake sugar trim and the combination has created one amazing hash. Not only does this hash help pain management but it helped us with multiple ailments such as bi-polar and more importantly for me insomnia problems. This is a excellent way to use up your un-wanted sugar trim and this hash has really surprised me i thought bubble hash was the best for my insomnia but in testing this dry sift hash i have now found another was to medicate. All around this was a pleasure thank you sub-cool for the great genetics and greenjon for his superb polm making skills an outstanding way to medicate.
