Smoke Test Comments: - When you smoke this strain you first get a wonderful taste of fruity skunk with a lingering after taste of hash, it is not the most potent strain i have tried but it is very good for daily use. We tried it in the TY RooR,a Herbalaire vaporizer & in joint form but it performed better in a vaporizer with a very smooth smoke & uplifting high. The smoke is very thick but stable in your lungs so no coughing

FINAL COMMENTS: -Overall we were very satisfied with the effects the Industrial plant gave, If you want a strain that will give you a nice head high but still leaves you motivated then this is a great strain. Dont get me wrong this strain will KO you especcially when vaporized & the crystal content is amazing, When looked at under a 100x scope the trichomes have a very small stem with HUGE amber heads which are very sticky to the touch. We were quite satisfied with this strain so thank you Dinafem.
