**Smoke Test Comments:** -We tied the cream caramel in various methods but my favorite was a bong hit. You got instant pain relief with a super soaring high combined with the most mouthwatering strain I have come across, on the inhale you get a nice fruity hash taste but the true flavor comes out on the exhale where you get a beautiful taste of ripe blackberry's dipped in thick clotted cream. Absolutely divine not to harsh and the head high was not too much, all around a very pleasing smoke.

**FINAL COMMENTS:** - This is one of the best strains we have come across in a very long time. It hit so many factors for me pain relief, appetite stimulation, help in easing anxiety and most importantly for me not setting a panic attack off which some strains can do! The structure, smell and taste were all on point and we found that you can smoke the caramel at anytime of the day, it is a superbly balanced strain that I am sure all who try her will like me will fall in love with this strain. Thank you Tommy of sweet seed's for bringing this strain into our life's and garden and a massive thank you to the breeders at sweet seed's for creating a top 5 strain of all time for our personal use! A top medicinal strain well done!
